

“The BioProtectUs System™ is the long awaited, long term, continuous and persistent antimicrobial protection.”

If you want to Protect the air your breath & most every Life Surface in your Home and business from Germs, Molds and Allergens, read this important message. You'll discover the perfect solution is now available... because we protect homes and businesses throughout New England!

It seems like every time you turn on the news these days, there are more and more stories of how our traditional ways of cleaning are mutating microbes and giving them the ability to grow into superbugs. These traditional Disinfectants and antimicrobial products work by weakening and hopefully penetrating the living cell walls then killing it using toxic chemicals which leach off Life's Surfaces. These outdated methods were designed to work rapidly and disappear quickly to avoid harming anyone however once the solution dries, the bacteria regrow and return to unsafe levels. Disinfecting Life's Surfaces every two hours is not an efficient use of anyone's time, not to mention the negative effects of repeat exposure that toxic cleaners have on your health.

Did you know?

Adaptive Organisms aka Superbugs

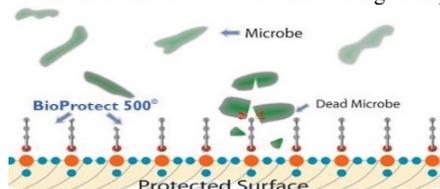

- 25 years ago, 80% of infections were controlled by antibiotics.
- Today, less than 50% of infections are deemed controllable
- The number of SUPERBUG related deaths have doubled in the last four years*
- Each year in the United States, at least 2 million people become infected with bacteria that are resistant to antibiotics....at least 23,000 people die each year as a direct result of these infections. ...**

Well we have a better way. We are NCT, Nano Coating Technologies, LLC. your local Home Sanitization Experts. We offer a state-of-the-art sanitizing and continuous cleaning system. This is a technology from the 70's which was reengineered as a water based, nontoxic FDA, EPA, USDA, and NSF(2) approved and certified (food surface safe) "no rinse" product. It is called the BioProtectUs System™. The system is a 2-step process, starting with fogging or spraying on our very own hospital grade, NSF (Food Surface Safe), disinfectant SmartTouch™ which has been verified to kill 99.999% of EPA Registered viruses, bacteria, molds and mildew. Second, we are fogging or spraying on our patented, game changing, dry working product that is a continuous and persistent cleaner of most of life's surface for up to 90days. We bring you BioProtect™. BioProtect™ is like no other product on the market today and is revolutionizing the cleaning and sanitizing industry.

IMPORTANT: All antimicrobials must be registered with the EPA, the EU, and often other regulatory bodies for their specific uses. A manufacturers specific use also should be registered (i.e., an antimicrobial that is only EPA registered for use in shoes should not be used for treating socks).

“I don't quite understand how that works, but I know that after he was finished, I stopped using nasal spray and breathe strips immediately. It has been 3 weeks now and I still don't have a problem in the house.”

*- David Liberatore
- Leigh Thomson*

Do You Need the BioProtect Us™ System?

Does a virus run ramped through your house or place of work?

Do you wake up every morning with a stuffy nose and dry eyes?

Do you or anyone suffer from Allergies?

Do you have visible mold and mildew in your attic or crawl space?

Are you trying to sell your house but won't, due to bad smoke and pet odors?

Has your home been flagged by a building inspector for mold issues?

Has your home had any damage from roof leaks, flooding or sewerage back up?

Do your basement and attic smell moldy and musty?

Are you afraid that E-coli, the Flu, MRSA, or any other illness causing microbes spread through your house and harm your family?

Do you have small children crawling through your house putting everything they see in their mouths?

Do you or a family member have a weakened or damaged immune system?

Are you constantly cleaning and disinfecting your life surfaces with harsh, toxic Chemicals which always require a water rinse to no risk poisoning your household?

Does your boat or RV smell of mold and mildew?

Does your summer cabin smell like it's been locked up for decades?

Does the dark side of your house, fencing and out buildings grow algae and moss no matter what you do?

So how does it all work

SmartTouch™ kills microbes and reduces the effects of most allergens by:

- Chemically altering certain amino acids that contain sulfur.
- Amino acids are important building blocks in the proteins that help to form cell walls. When these proteins are destroyed, the cell wall ruptures and the organism die.
- In the chemical reaction SmartTouch™ takes on an electron from the amino acid and reverts to a chlorite ion then the amino acid gives up an electron
 - Giving up an electron is what chemists call oxidation.

BIOPROTECT™ kills microbes by:

- First creating a non-receptive surface with the first application which, for visualization, can be likened to spikes that pierce and rupture the cell membrane of a microbe.
- Each molecular spike carries a positive charge that attracts the negatively charged bacteria.
- Once attracted, the molecular spikes pierce the cell wall rupturing its cell membrane.
- The nitrogen releases a charge which eradicates the remnants of the microbe. Antimicrobial resistant strains (or Superbugs) cannot develop.

What We Protect Against

| Bacteria | Mold/Fungi | Viruses |
|------------------|----------------|-----------------|
| E.Coli (feces) | Ringworm | Norovirus |
| Salmonella(food) | Athlete's foot | Influenza |
| Listeria (water) | Candida | HIV |
| MRSA | Asthma | Measles, Mumps |
| Staph Aureus | Aspergillosis | Chicken Pox |
| Tuberculosis | | Hepatitis A-B-C |
| Legionella | | Hanta Fever |

Does your property need our help? Call our office and let's find out. Our products are safe to use on 100's porous and non-porous life's surfaces. From kitchens and bathrooms to biohazard clean-up and hospital rooms. PERSISTENT. CONTINUOUS. CLEAN. "The Future of Clean™" is here. What do you have to lose? Nothing! What do you have to gain? A healthier, happier home for you and your family! So, if you have mold and mildew problems, a sickness wreaking havoc on your household or a nasty pet and cigarette odors that just won't go away. NCT is here for you and ready to help. So, call NCT now and set up a home consultation. You'll be glad you did!

So, if you want to learn more or if you have any questions, call us at our office right away. We'll gather a little info on your house, answer any questions you may have and set up a time to come take a look to see how we can help.

Once we know what we're looking at. We'll let you know what we can do to increase the health and well-being of your home. Call now. If it's after hours or you get our voice mail, please leave a message and we'll return the call.

You can always visit our website to learn more 24 hours a day. Otherwise, just call us direct. We are here for You!

Sincerely,

Joseph Hocker, Co. Founder 603-630-5377
