

PERSISTENT, CONTINUOUS, CLEAN

L-420 TEXTILE TREATMENT

L-420 Textile Treatment is a revolutionary liquid fabric softener containing BIOPROTECT antimicrobial technology.

L-420 Textile Treatment contains no triclosan, heavy metals, arsenic, titanium, phenols or poisons.

L-420 Textile Treatment provides extended odor protection caused by sweat, mildew and other odor causing microorganisms.

Product Highlights:

- Neutralizes and prevents offensive odors
- Preserves and extends the life of treated fabrics
- Effective on all woven and non-woven fabrics

Directions for Use:

Add 2oz of L-420 Textile Treatment to every 12 lbs of laundry in the softener cycle.

L-420 Textile Treatment can be used on the following textiles:

- Bed Sheets
- Dish Towels
- Bath Towels
- Hospital Curtains
- Hospital Scrubs
- Hospital Gowns
- Workout clothing

L-420 Textile Treatment featuring BIOPROTECT antimicrobial technology provides a persistent, continuous, effective clean that protects against bacteria and germs until the next wash.
